Education

United Institute of Technology **Aug. 2024 – Present**
Bachelor of Technology in Computer Science (Data Science) *Prayagraj, Uttar Pradesh*
Minor in Computer Science – IIT Mandi

M V Convent Inter College **Apr. 2022 – Mar. 2023**
Higher Secondary (Science Stream) *Prayagraj, Uttar Pradesh*

Experience

Neeyat AI **March 2026 – April 2026**
Technical Project Manager & Engineer Intern *Remote*

- Drove **product roadmap and strategy** for a cloud-native MCP server by defining 10+ core features and technical requirements, accelerating the AI-driven performance testing MVP launch by 20%.
- Enhanced **stakeholder communication** by converting the product roadmap into a prioritized sprint backlog, leading daily stand-ups across a cross-functional team of 5 and improving on-time sprint delivery by 25%.
- Championed **data-driven decision making** by establishing feature success metrics and using product usage data to re-prioritize the development backlog, eliminating low-impact tasks.

Projects

AcquireKeep | ***React, Next.js, RESTful APIs, Tailwind CSS*** **Code** | **Live**

- Accelerated data retrieval by 30% for 100+ users by architecting a full-stack resource tracking application with React and Next.js server-side rendering, optimizing API payload delivery.
- Achieved 40% improvement in cross-device UI responsiveness by integrating a Tailwind CSS design system and automating deployment pipelines via Vercel CI/CD.

Data Lenz (Dataset Analyzer) | ***Python, Flask, Machine Learning, React*** **Code** | **Live**

- Eliminated 10 hours/week of manual data preprocessing for non-technical users by engineering a zero-code Python/Flask ML pipeline with automated feature analysis and hyperparameter tuning.
- Bolstered model transparency by 50% by integrating live training progress visualizations and performance metrics into an interactive React dashboard, enabling instant feature importance analysis.

Portfolio Maker | ***React 18, Vue.js, JavaScript, Tailwind CSS*** **Code** | **Live**

- Reduced average build time by 50% by architecting a reusable component library with React 18 and Vue.js, enabling the dynamic generation of 45 unique portfolio themes.
- Improved user experience quality by 35% by implementing responsive layouts and state management for seamless theme switching, validated by peer code review.

Technical Skills

Languages: C++, Python, JavaScript, SQL, HTML/CSS
Frameworks/Libraries: React 18, Next.js, Vue.js, Tailwind CSS, Bootstrap, Flask
Developer Tools: VS Code, Jupyter Notebook, Git/GitHub, AutoCAD, MATLAB, Google Colab
Core Concepts: Machine Learning, Data Visualization, RESTful APIs, Agile Methodologies, Product Roadmap Development, Stakeholder Communication

Certifications

AI and Python Certification – Issued by UDEMY View Credential

Leadership & Mentorship

IEEE – UIT Prayagraj **Nov. 2025 – Present**
Technical CS Head *Prayagraj, Uttar Pradesh*

- Increased technical event attendance by 35% for 200+ students by directing the Computer Society wing, organizing Data Science workshops and coding hackathons, and leading a code review team of 5 mentors.
- Accelerated community project delivery by facilitating Agile sprints and daily stand-ups for a core team of 15+, ensuring on-schedule release of all CS initiatives for the semester.
